# FEATURES

- ◆ **Ultra Slim & Light Weight**  
sPoster has been engineered with latest technologies to give it a smoother, slimmer profile. It's crafted in beautiful anodized lightweight yet durable aluminum, to make the entire poster frame weigh less than 32kg and only 42mm in depth, making it more portable and easier to install.
- ◆ **Bright, Adjustable & High Protection**  
Up to 1,200nits brightness, support synchronous asynchronous dual mode function.
- ◆ **Plug & Play Media Player**  
The second generation sPoster can be integrated with Novastar synchronous and asynchronous control system, can plug and play with zero setting, it's fast and simple for end users maintenance.
- ◆ **Convenient & Multi-function Interface**  
Supporting vertical, horizontal, wall mounted and hoisting installation.
- ◆ **Cluster Management & Internet**  
Intelligent cluster management, it can remote centralized management audit, precision marketing mode, to double advertising value.

# SoStron Poster LED Display

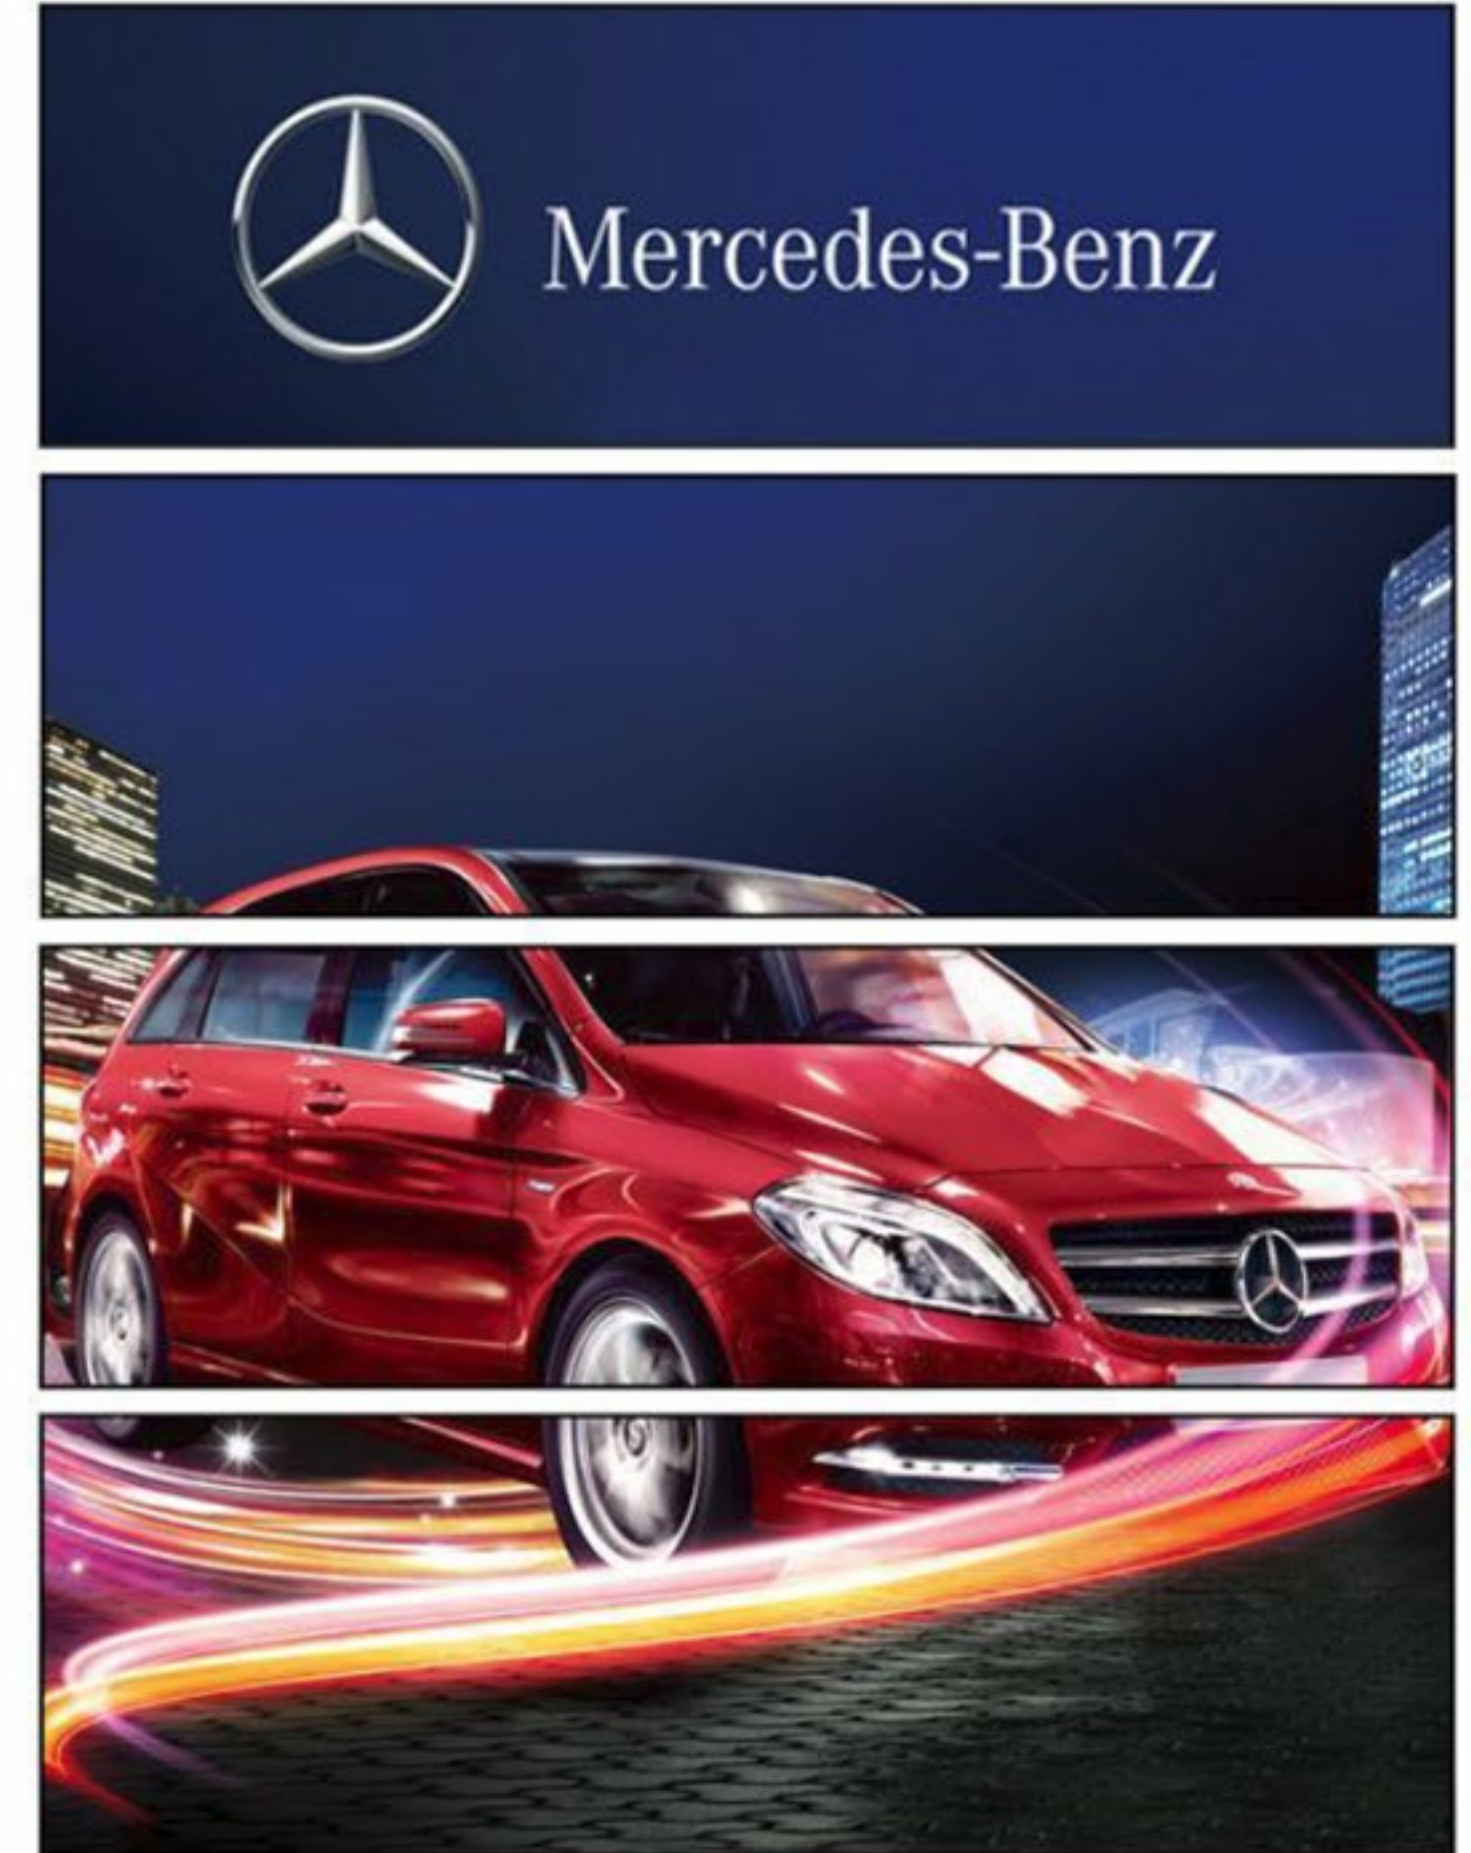

## Key features

1. **Pixel Pitch: 2.5mm / 3.0mm**
2. **Cabinet Size: 640x 1930x40mm.**
3. **Product Weight 40kg**
4. **Installation environment Indoor.**
5. **Convenient & Multi-function Interface**
6. **Application: High-speed train, airport Sales will, education, hotel, Phone Shop Auto 4S shops, etc**

# Multiple Applications

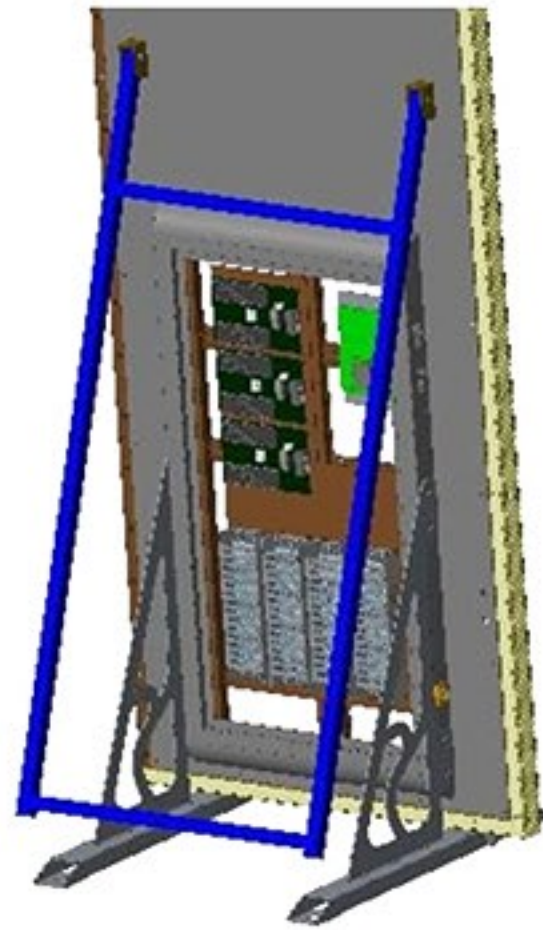

**Join together**

**Wall Mounted**

# Main Feature

## Features 1:

**Composite materials, super light design**

**-- Apply structural mechanics, SPCC1.5 main frame to ensure structural strength**

**--Aluminum alloy back shell, lightweight material for improved heat dissipation**

## Features 2:

**The system comes with WIFI-AP**

**-- Full coverage of user terminals, wireless connection for mobile phones, pads, PCs**

**-- Free wiring, manage display and release programs at any time**

# Main Feature

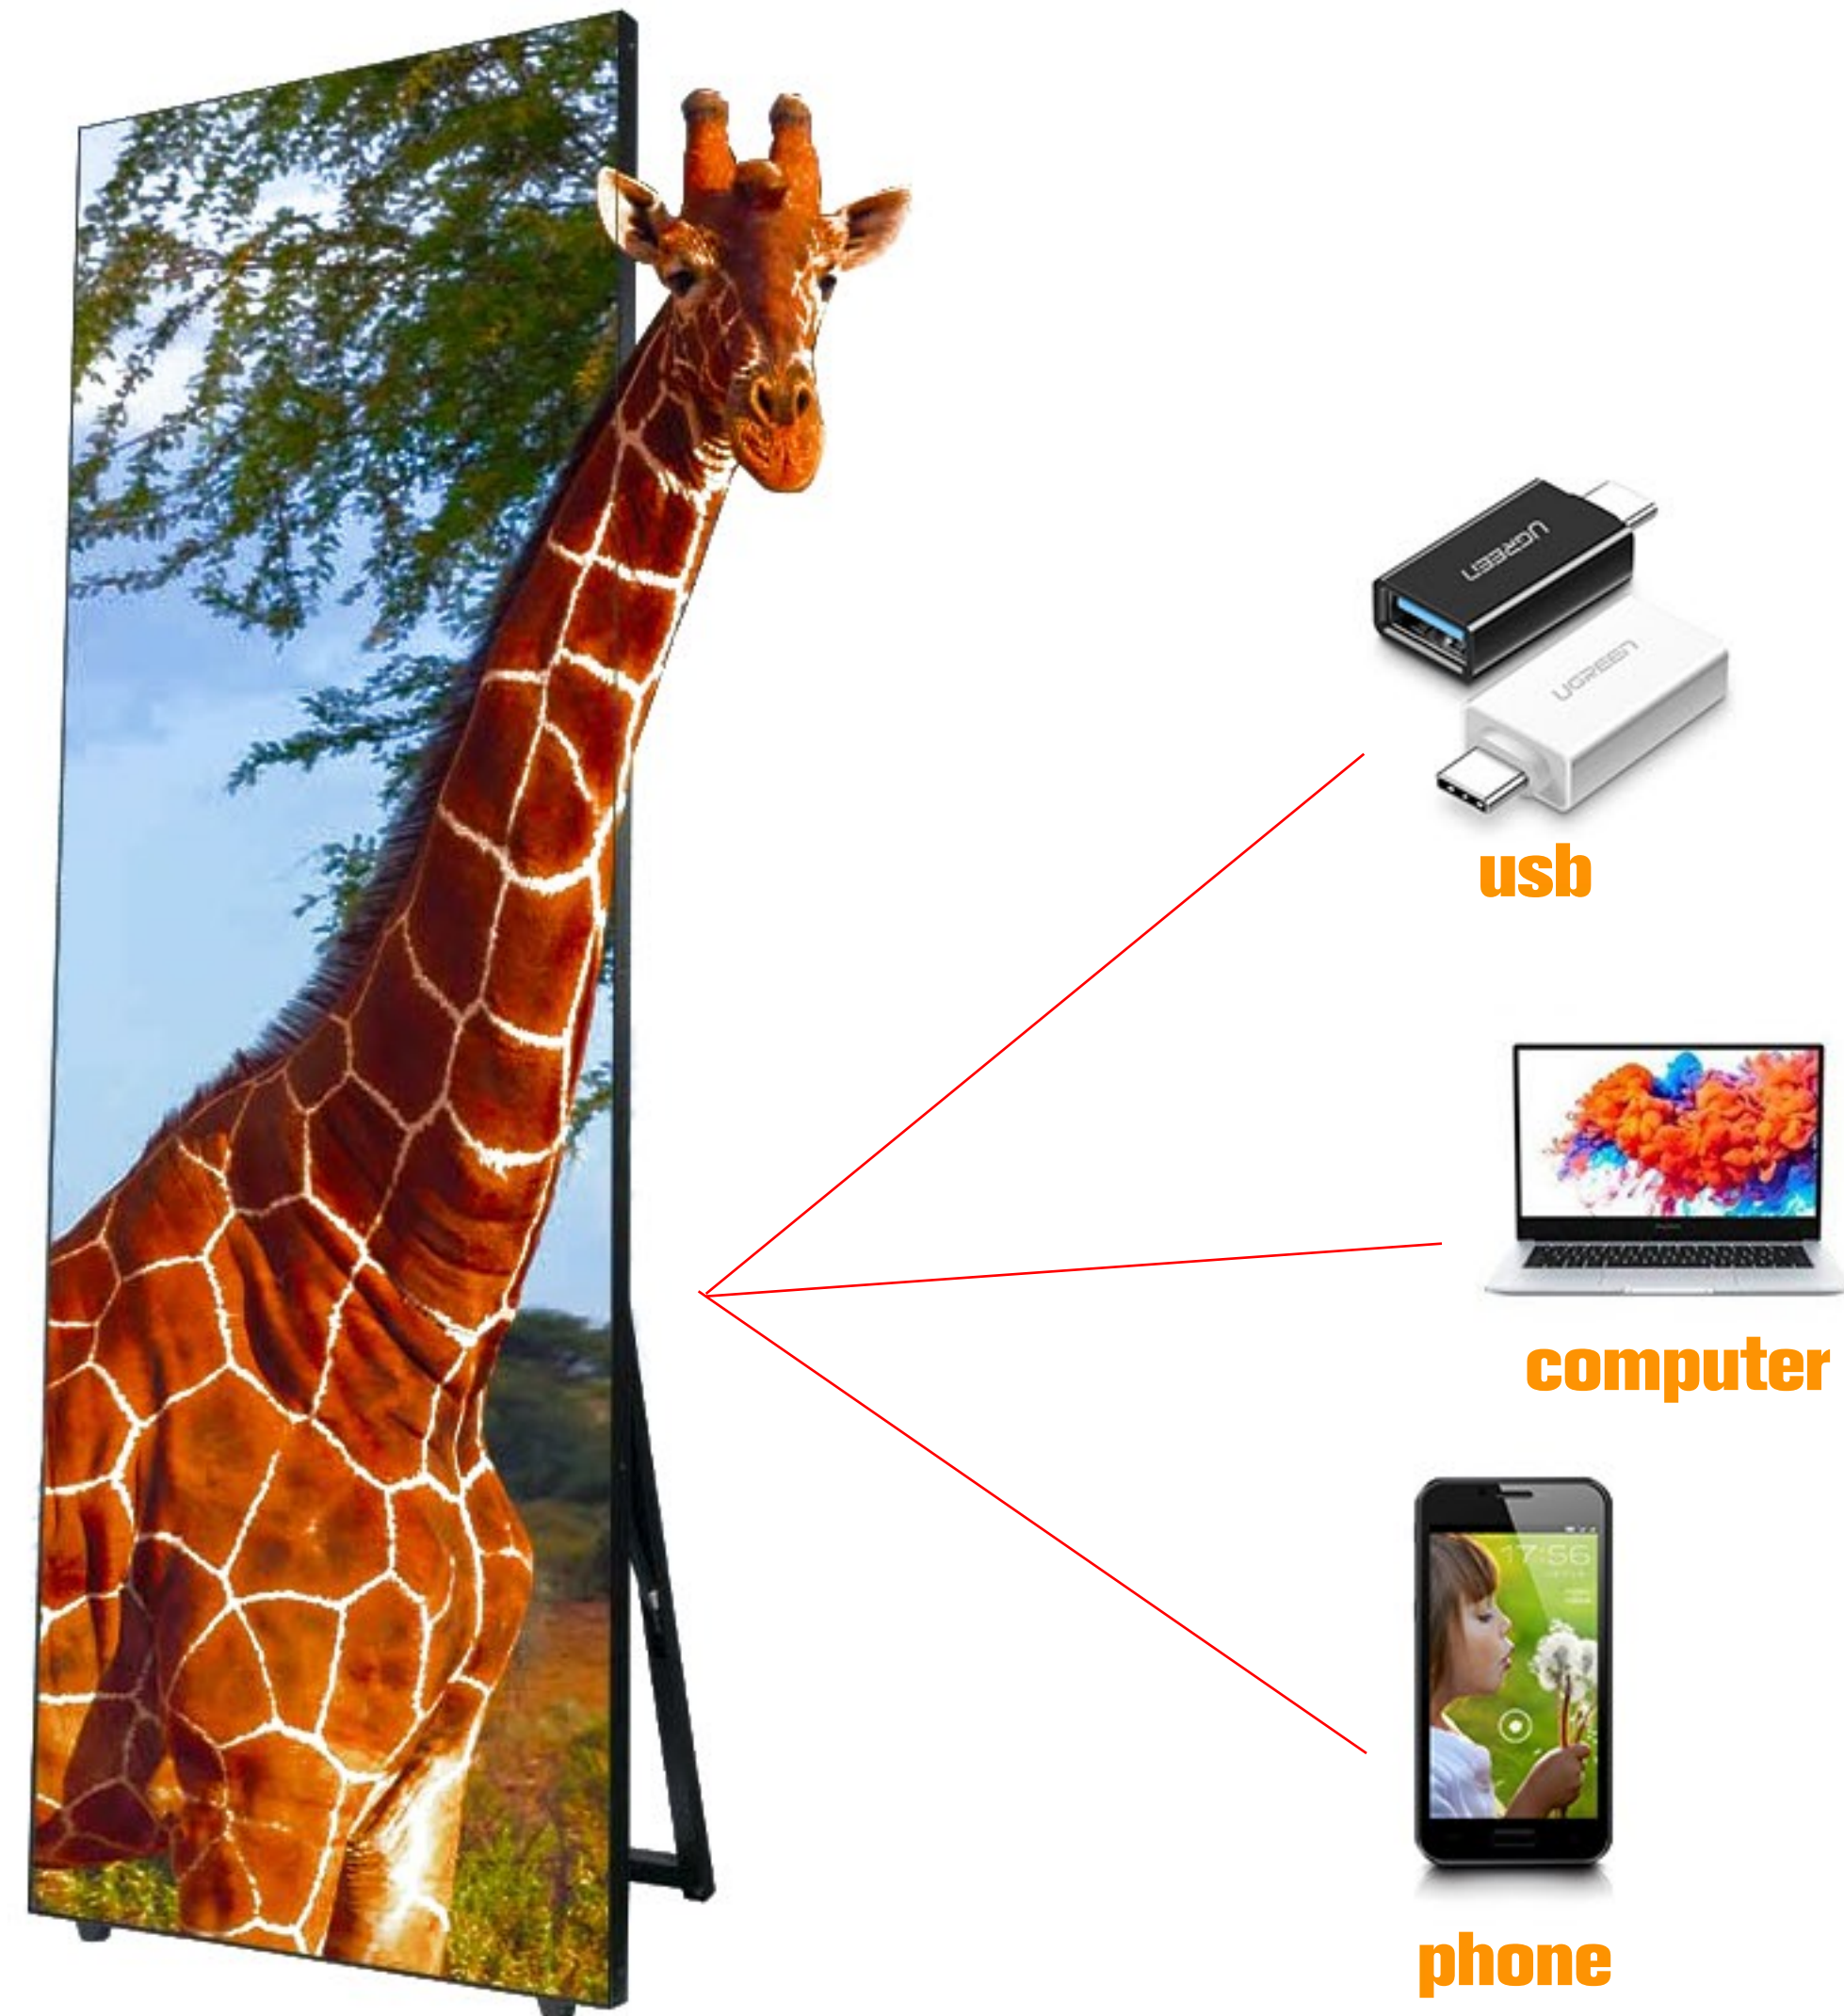

## Features 3:

### Powerful hardware processing performance

- System built-in 8-core processor, 2GB running memory, 8GB storage
- Support H.265 4K HD video hard decoding playback
- Support 1080P video hard decoding
- Support JPEG\BMP\GIF, PNG\WEBP and other image formats
- Support video formats such as MPEG4\WAV \FLAC\AAC\3GP

# Main Feature

## Features 4:

**Support intelligent cloud service cluster control**

-- **Use public network or self-built server**

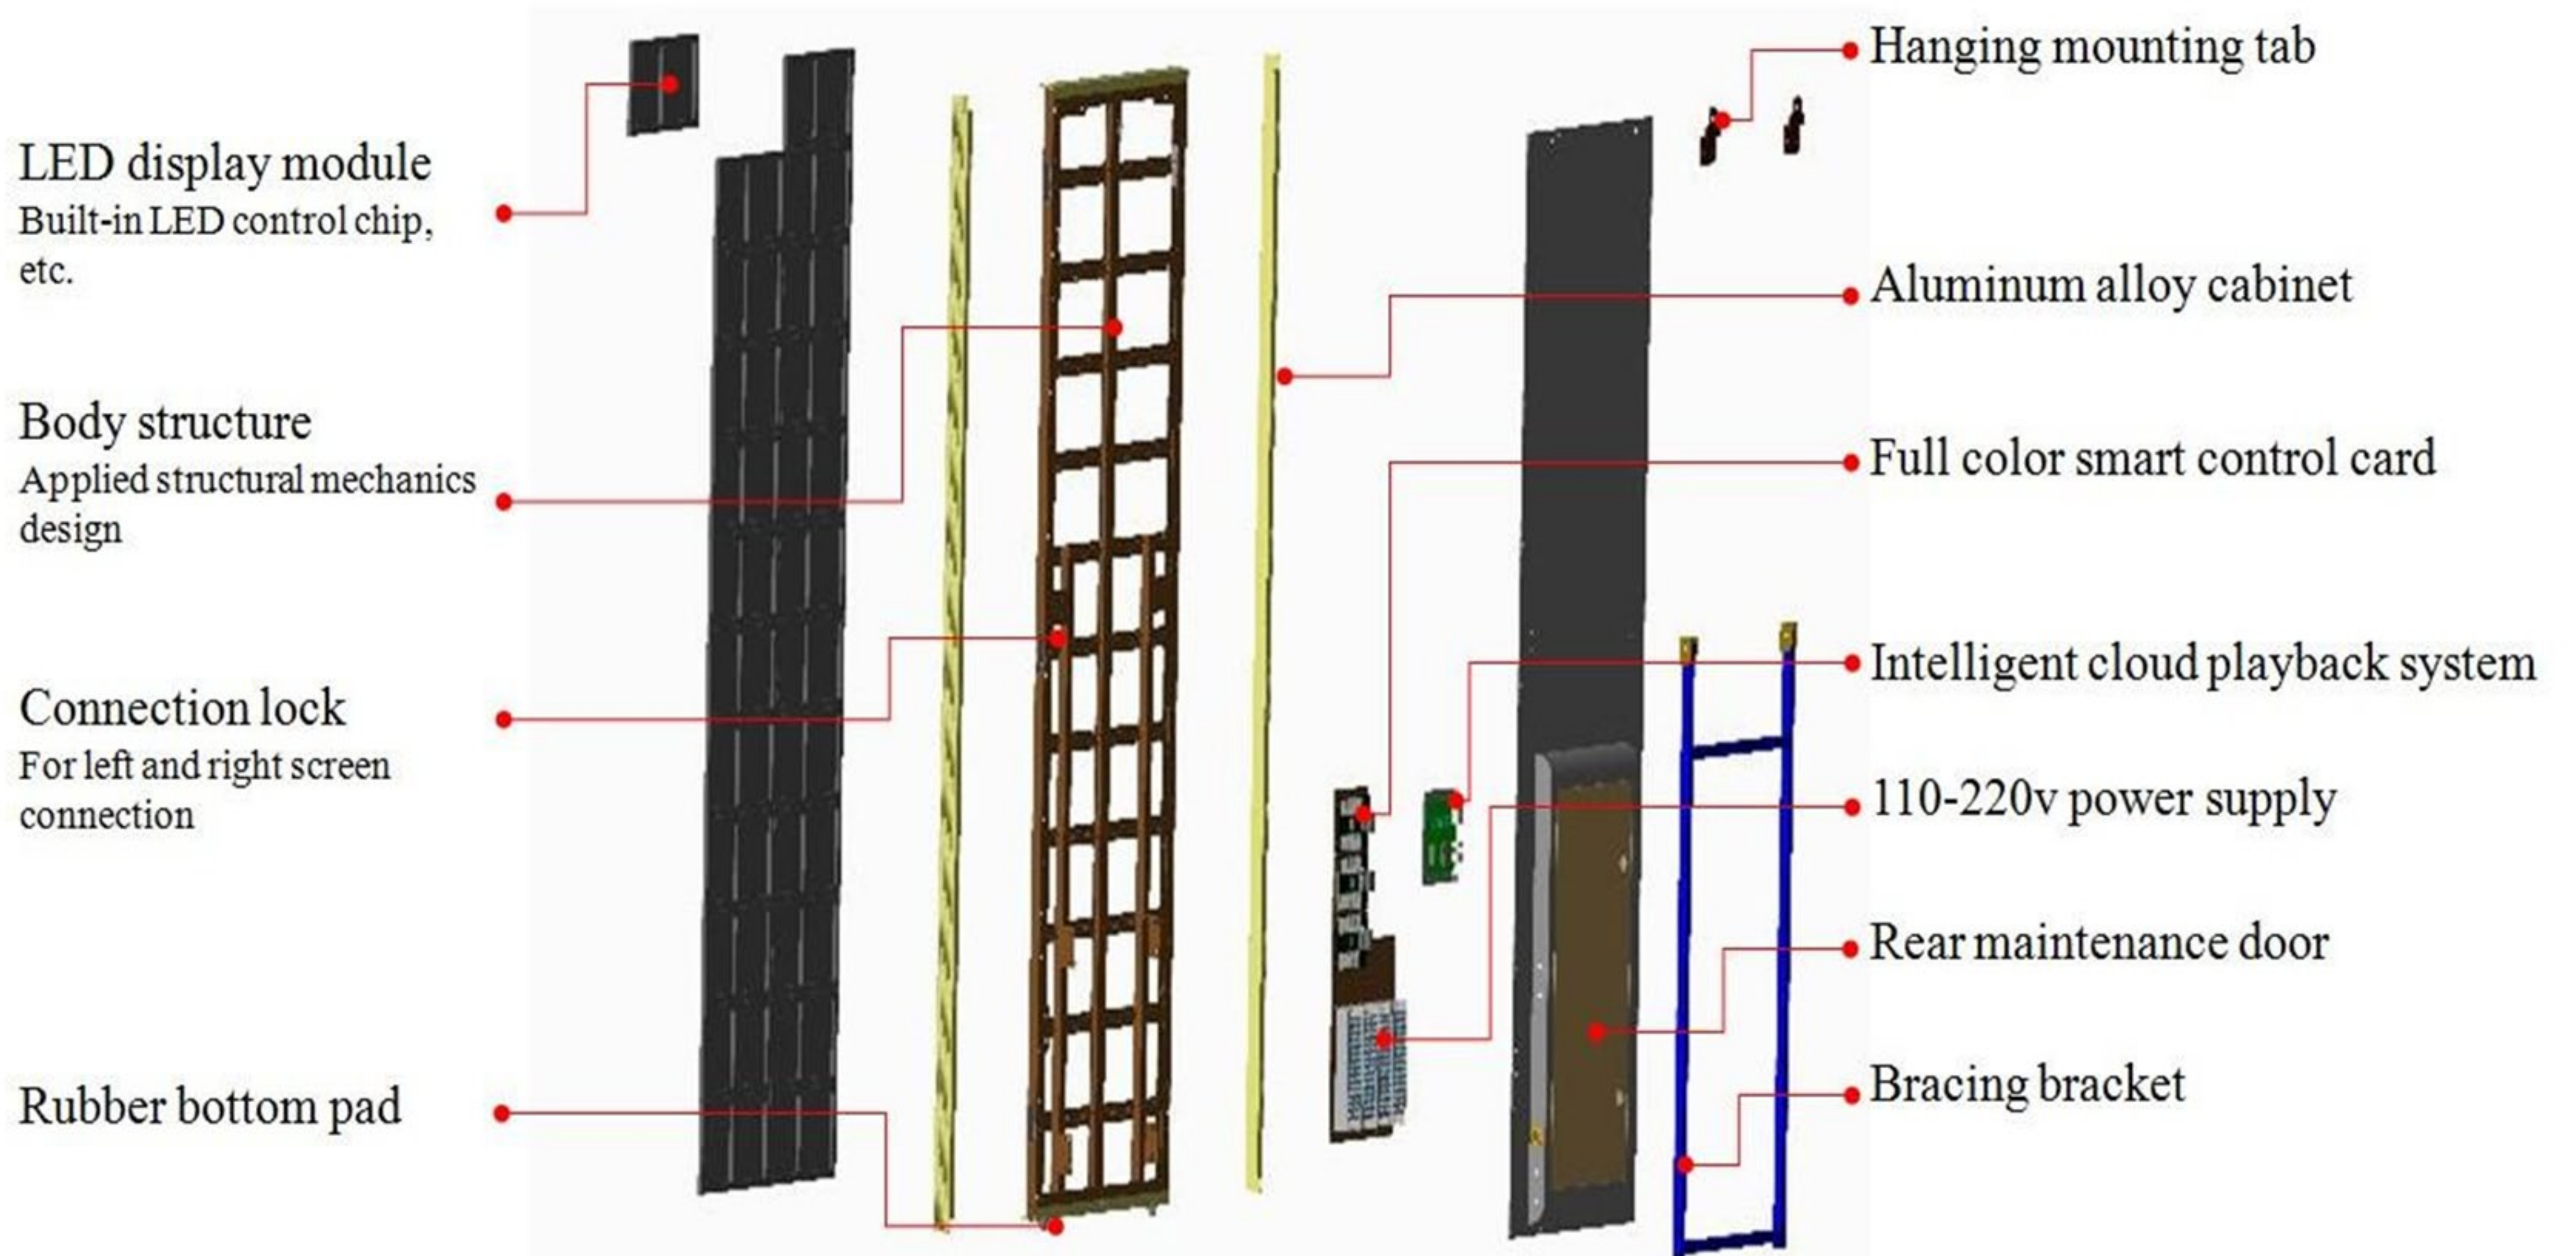

-- **System built-in networking control software**

-- **4G\WIFI or Cat-5 wired networking**

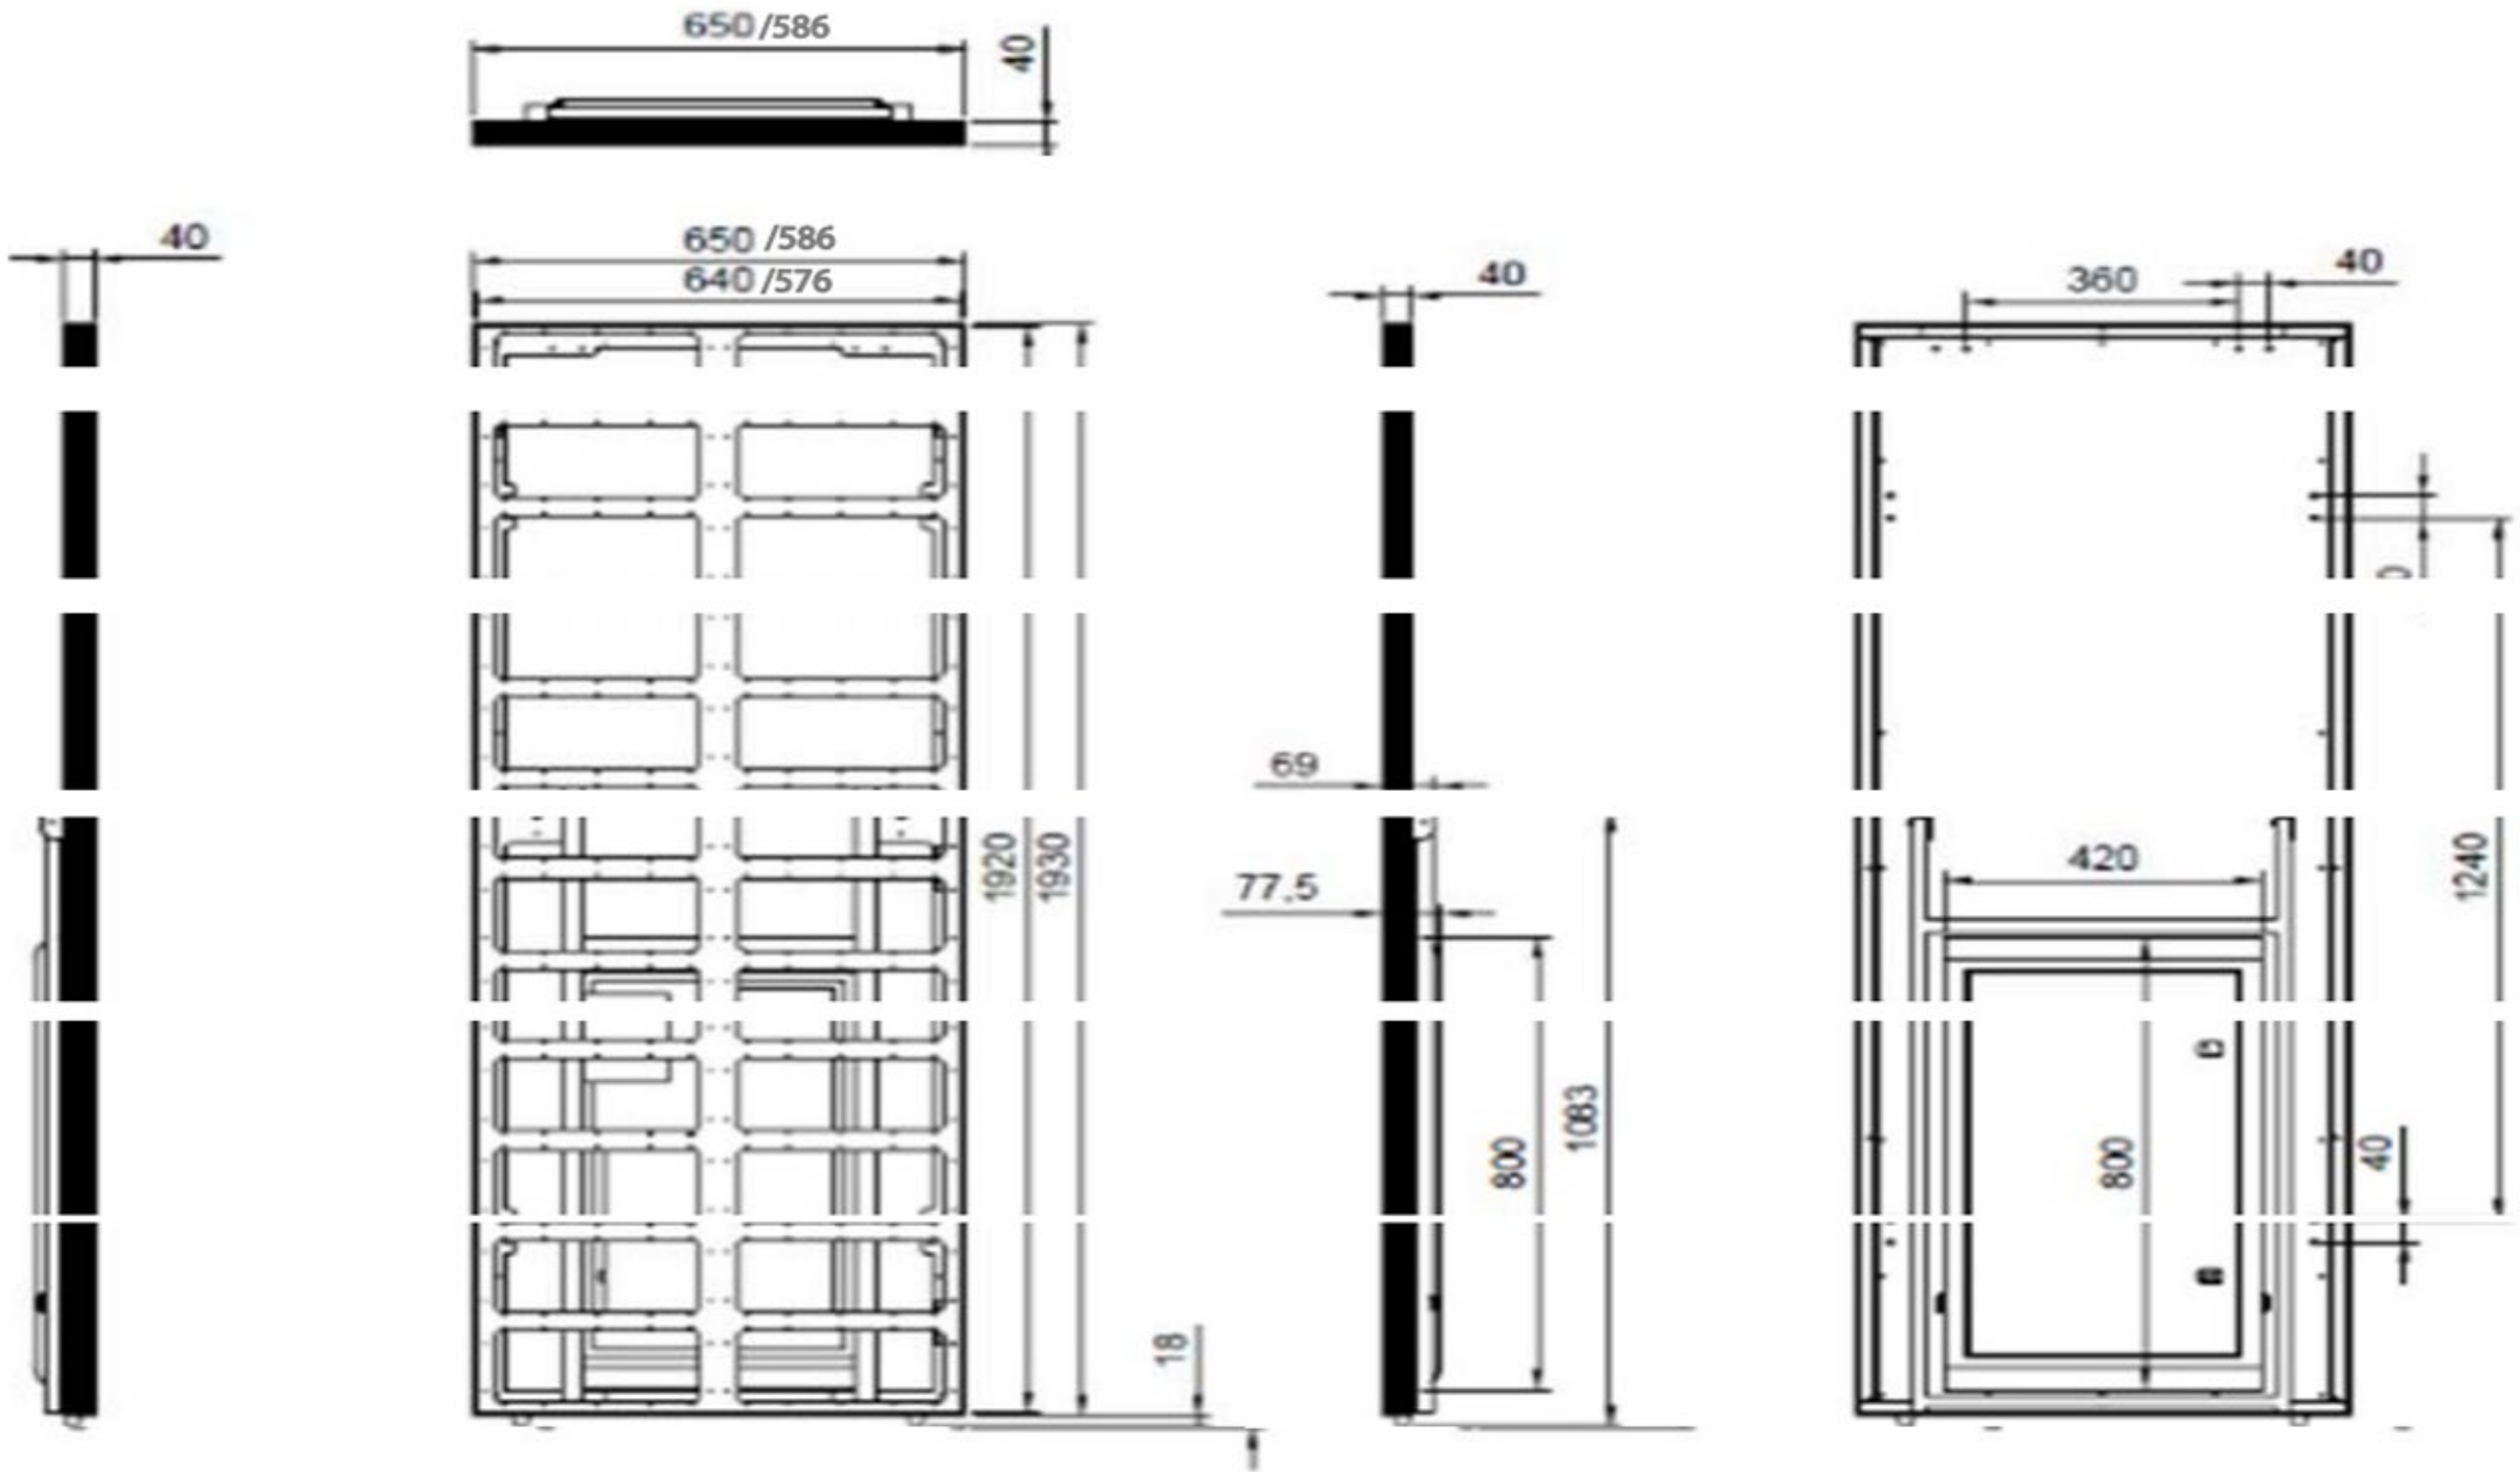

-- **Can be achieved through a cloud platform unified platform processing, control and more, a plurality of display terminals, unified release, management programs, etc.**
